Quarts and  
Half Gallons

At HASTING'S

Mrs. Fred Unrath,  
President County Club, Deacon  
Barber, Mo.

"After my first baby was born I did not seem to regain my strength although the doctor gave me a tonic which he considered very superior, but instead of getting better I grew weaker every day. My husband insisted that I take Wine of Cardui for a week and see what it would do for me. I did take the medicine and was very grateful to find my strength and health steadily returning. In two weeks I was out of bed and in a month I was able to take up my usual duties. I am very grateful at its price."

Wine of Cardui reinforces the organs of generation for the control of pregnancy and childbirth. It prevents miscarriage. No woman who takes Wine of Cardui need fear the coming of her child. If Mrs. Unrath had taken Wine of Cardui before her baby came she would not have been weakened as she was. Her rapid recovery should convince this present reader to every expectant mother. Wine of Cardui regulates the menstrual flow.

WINE OF CARDUI

## Sour Stomach

"After I was induced to try CARDIUM, I will never let anyone touch them in the future. My liver was in a very bad shape, and my head ached and I had stomach trouble. Now I am taking CARDIUM, CURE Tonic. My wife has also taken CARDIUM before her baby came and she would not have been weakened as she was. Her rapid recovery should convince this present reader to every expectant mother. Wine of Cardui regulates the menstrual flow."

JOE BREHILL, 124 Congress St., St. Louis, Mo.

CANDY  
CATHARTIC  
**Cardiato**  
TRADE MARK REGISTERED

Pleasant, Palatable, Perfect, Taste Good, Do  
Good, Never Bitter, Weakens or Grieves, etc., etc.

No-to-Say! Pain and distress are relieved by all druggists to CURE TOBACCO HABIT.

## Furniture and Undertaking

Put all times am keeping a nice line  
of Furniture, Wall Paper, Telescopas,  
window shades, Bedding and Oil Cloths;  
A fine line of Ingram Carpet, samples  
Brussels, Mequets, and I make tiles of  
Picture Frames.

Also my Coffins and Undertaker's  
supplies are fine and a large line to pick  
from. I have robes and shrouds, white  
hoses. I have taken a thorough course  
in Embalming and will take good care  
of bodies and preserve them with fluid.  
I furnish Pictures enlarged and many  
other things.

D. W. TEETER,

Jasper, Missouri

ROCKY MOUNTAIN TEA

Made only by Madison Medi-  
cine Co., Madison, Wis. It  
is the best tea, each package  
Price 25 Cents. Never sold  
in bulk. Agents, no agents.

### SOME CROP YARNS.

They are from Kansas but are no  
better than Missouri can furnish.

This has been a marvelous year for  
the farmers and some of the crop stories  
are almost beyond belief. Here are a  
number from the Kansas City Journal.  
They are from Kansas, but Missouri  
can furnish them just as marvelous, if  
not more so:

The country papers of Kansas are now  
filled with prosperity stories, all dealing  
with farmers who have hit it rich this  
year.

Fred Rowland, a farmer of Harvey  
county, had 45 acres of alfalfa. He  
got 100 tons of hay worth \$300 and 125  
bushels of seed, valued at \$744, from it.  
The total proceeds on the 45 acres  
 aggregated \$1,414.

W. L. Action bought a quarter section  
of land in Decatur county last January  
for \$1,000. He planted forty acres of al-  
falfa. His crop netted him \$1,000 or \$1,  
000 more than the land cost.

In the pumpkin show at Abilene  
recently Hiram Brooks captured first  
prize with a pumpkin weighing 1600  
pounds.

John Carter sold a load of water-  
melons at Junction City that averaged  
sixty pounds in weight.

Ion Dunton of Smith county, plan-  
ted a half bushel of potatoes and  
raised thirty two bushels. One of the  
first to come in a mess for a family of  
four and it was a potato eating family,  
too.

E. L. Morris, of Westmoreland, got 102  
bushels of potatoes from two and one-  
half bushels of seeds.

George W. Atchison, of the same  
place raised 115 bushels of potatoes from  
three bushels of seeds.

Mrs. Sarah Voadell, of Douglass, a 10  
x 45 acre farm for \$100 per acre, a few  
days ago. Five years ago the farm  
would not have brought \$20 an acre.

Henry Evans, of Rice county, says he  
raised 1800 bushels of wheat and 2,000  
bushels of corn this season. He did all  
the work himself except in harvest time.

C. W. Schmid has just bought 5,000  
sheep to ship to Selbyville county.  
Two years ago he fed 15,000. He says  
there is big profit in sheep when corn is  
plentiful.

Clyde Helges, an Atchison newsboy,  
last spring bought some pigs for \$10.  
He has just sold them for \$172, clearing  
up \$162 profit.

Wright Newhouse, of Linn, etc. a  
stack of ears twenty feet long. E. E.  
Smith, of the same town, exhibits an  
ear of corn containing over 1,200 kernels.

John S. Miller, of Doniphan county,  
has sold 1,000 barrels of apples at \$1.10  
per bushel. This made him about \$3,  
000.

Mrs. Nate Estelit, of Jewell City,  
made a specialty this season of raising  
apples sixteen inches in circumference.

C. N. Sutton, Coffey county, raised  
2,200 bushels of corn on twenty acres,  
an average of 112 bushels to the acre.

Joe Hink, of Dodge City, brought in  
thirteen potatoes the other day that  
measured a half a bushel.

A tree in M. F. Ellis' yard, at Atchison,  
is bearing its second crop of apples  
this season.

Henry Bond, of Rossville, has an ear  
corn fourteen inches long weighing two  
and one fourth pounds.

The only "cobbin" found in the corn  
fields of Franklin county this year came  
off a stalk of corn which had been  
struck by lightning.

Albert Henner, of Kensington, this  
year raised 2,000 bushels of corn on 25  
acres and 1,500 bushels of wheat on six  
or seven acres.

"It would be hard to convince Jeb  
Butler that farming in Kansas doesn't  
pay," says the Topeka Record. "If the  
three or four store buildings the half a  
dozen residences, which he rents, at a  
moderate price and which were built with  
money made in farming, should suddenly  
become nonproductive, Mr. Butler  
declares that he would not starve for a  
few weeks, at least. With a big wheat  
average that averaged thirty bushels to  
the acre, with immense corn fields that  
will average seventy bushels to the acre  
and with about 400 bushels of potatoes  
on the farm, and an abundance of smaller  
crops, he thinks that he would be  
able by strict economy to get through  
the winter. He has 112 head of 2 and 3-  
year-olds that he will put on full  
feed, and next summer he will about  
break up the packing train. Farming  
may not pay in Kansas," he said to a  
Record man, but he'll be able to keep the  
wool from growing the screens down un-  
til the flies come next year. Even a cur-  
dog could fight back the long-eared  
mawer with such crops as these."

It stands there it towers above.  
There's no other, its nature's wonder, a  
warming poultice to the heart of man-kind.  
Such is Rocky Mountain Tea  
at E. T. Lauderbaugh Drug Co.

### Out Of Death's Jaws.

"When death seemed very near from  
a severe stomach and liver trouble, that  
I had suffered with for years," writes P.  
Muse, Durhagh, N. C., "Dr. King's New  
Life Pills saved my life and gave perfect  
health." Best pills on earth and only  
5c at Webb Drug & Hdw. co.

Remember we carry a full line of

### FARM NEWS AND VIEWS.

Increasing Fertility of the Farm  
Destruction of the Borer, etc.

From the Indiana State Sentinel.

The profit from farming come in slow-  
ly, and several years may elapse before the  
farmer is aware that his farm pays.  
This is due to the fact that fertility in  
the soil is cumulative, the results of the  
first year being but little, apparently,  
though every year thereafter the farm  
will increase in productive capacity. The  
system of farming practiced will also in-  
fluence the future of the farm. Where  
stock is a specialty the results are nearly  
always excellent, and rotation of crops  
aid in giving a profit, but the largest  
gain is when the farmer uses fertilizers  
generally and gives his attention to the  
preservation of the manure produced on  
the farm.

If several kinds of food are placed be-  
fore cows they will select the kind first  
that is most palatable, and when satisfied  
will reject a large portion, which may  
be wasted. When the foods are prepared  
and made more palatable by the ad-  
dition of ground grain to hay or straw or  
fodder, there will be less waste.

In the pumpkin show at Abilene  
recently Hiram Brooks captured first  
prize with a pumpkin weighing 1600  
pounds.

John Carter sold a load of water-  
melons at Junction City that averaged  
sixty pounds in weight.

dog could fight back the long-eared  
mawer with such crops as these."

An excellent time to select seed corn  
is when it is being husked. All seed  
corn should be kept in a dry place, and  
if hung up where the air can circulate

A typical South African Store.  
O. B. Larson, of Bay Villa, Sundays  
River, a new colony, conducts a store-  
y of South Africa, at which can be  
purchased anything from the proverbial  
"needle to an anchor." This store is  
situated in a valley one miles from the  
nearest railway station and about 25  
miles from the nearest town. Mr. Lar-  
son says: "I am favored with the cus-  
tomers of farmers within a radius of 50  
miles to many of whom I have supplied  
Chamberlain's Remedy. All testify to  
the value in a household where a doctor's  
advice is almost out of the question.  
Within one mile of my store the popula-  
tion is perhaps 60. Of these, within the  
past twelve months, no less than fourteen  
have been absolutely cured by Chamberlain's  
Cough Remedy. This must surely be a record." For sale by Webb  
Drug and Hdw Co.
